

# AIA ORLANDO ARCHICAD BIM BUNDLE

SAVE 25% ON NEW LICENSE PURCHASES OF ARCHICAD OR ARCHICAD SOLO!\*

GRAPHISOFT and the AIA Orlando are partnering to provide a 25% discount to AIA Orlando members looking to make the switch to ARCHICAD—and this offer comes bundled together with free training.

Why make the switch? Because ARCHICAD gives you the ability to manage all phases of the design process at any scale within one solution, from initial concepts all the way through to rendering and construction documents. *Make the choice to work more efficiently by using ARCHICAD's cutting-edge design technology—now available to you at a significant discount!*

---

*"I've used ARCHICAD for 18 years and rely on it's powerful 3D capabilities every day. It gives the entire project team confidence that a project is well-coordinated and can be built as designed. Clients love the ability to see the project in three dimensions before being built."*

– G Todd Yeomans, Yeomans Work Architecture, Sarasota, FL

---

New GRAPHISOFT customers can take this low-risk path to BIM by getting a **new license of either ARCHICAD or SOLO at a 25% discount**. Solo is great for small firms and sole practitioners; ARCHICAD is great for growing firms.

**In addition to this great discount, you'll get access to 4 remote learning sessions.** During these lessons, you'll learn all the BIM basics as well as more advanced skills, like creating 3D details. You'll even learn how to show off your work on a smart phone or tablet!

## The AIA Orlando ARCHICAD BIM Bundle Offers:

- ▶ New licenses of ARCHICAD or ARCHICAD Solo at a 25% savings when purchased between September 1, 2018 and October 31, 2018.\*
- ▶ ARCHICAD Fundamentals and ARCHICAD Intermediate remote learning access from September 1, 2018 through December 31, 2018. These 2 courses can be taken live online or from our on-demand video library. A \$700 value that's FREE as part of this offer.

\*Offer valid only for AIA Orlando members who are *new customers to GRAPHISOFT*. Must purchase between September 1, 2018 & October 31, 2018. Existing GRAPHISOFT customers may contact [info@graphisoft.com](mailto:info@graphisoft.com) to learn about how you can add new licenses of ARCHICAD to your firm.

# AIA ORLANDO ARCHICAD BIM BUNDLE TRAINING INFO

Whether you take this training live or conveniently pre-recorded, you'll learn everything you need to get started with your ARCHICAD BIM transition. And you'll earn up to 13 AIA CEU!

## ARCHICAD & BIM WORKFLOW FUNDAMENTALS REMOTE LEARNING

This interactive, hands-on training course introduces basic Building Information Modeling (BIM) techniques and collaboration concepts. At the conclusion of the course, attendees will have a working understanding of BIM basics and the skills needed for adopting a streamlined BIM workflow. Topics include:

- ▶ Launching the Program
- ▶ Working with the Interface
- ▶ Selection Techniques
- ▶ Common Techniques
- ▶ Building the Model
- ▶ Working with Walls
- ▶ ARCHICAD 3D
- ▶ Window & Door Tools
- ▶ Using Editing Tools
- ▶ Favorites
- ▶ Story Settings
- ▶ Trace Reference
- ▶ Foundation
- ▶ Magic Wand
- ▶ First Floor Slab
- ▶ Placing Columns
- ▶ Placing Beams
- ▶ Placing Objects
- ▶ Complex Profiles
- ▶ Second Story
- ▶ Roof
- ▶ Section/Elevation Markers
- ▶ Layers
- ▶ Library Management
- ▶ Keyboard Shortcuts
- ▶ And More!

## ARCHICAD INTERMEDIATE REMOTE LEARNING

ARCHICAD Intermediate Training is for new users that have attended ARCHICAD Fundamentals training, or for current ARCHICAD users who are looking to enhance their skills. Topics covered during the training include:

- ▶ Utilizing the Morph Tool
- ▶ Using sections and elevations to see how a model is put together
- ▶ Enhanced detailing
- ▶ Understanding worksheets and best practices for adding notes and storing them as visual favorites
- ▶ Improving workflow through customized settings and element attributes
- ▶ Customizing and creating unique wall composites, fills, building materials, surfaces, and how to import/export these elements
- ▶ Learn the importance of organization when documenting and designing your model with project map, view map, layout, and publisher
- ▶ Creating layouts, title blocks, auto text, and updating layouts
- ▶ The importance of template creation and how to create a new template

## About Your Instructor: Veleda Miller, GRAPHISOFT BIM Consultant

For nearly two decades, Veleda Miller has been implementing and training ARCHICAD to architectural and construction companies. She first began as an ARCHICAD user, and had the opportunity to implement automated material calculations for various companies using ARCHICAD. This allowed her reach out to other ARCHICAD users and provide training, technical support, template development, and project assistance. Veleda has a diverse background, from working with log home companies, high-end residential homes, schools, and medical facilities. This experience has helped her define best practices and methodologies for integrating BIM into everyday workflows for the architecture and construction industry.
